**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I find the competitive Phone company offers a better service for less to equal the bug people please continue to allow the wholesale use of the infrastructure.

After all we as customers paid for this infrastructure to be built through our bills before the 1990's. Why should it not be accessible to other companies. Like PG&E buys our Solar to grid power. Solar would bot be possible to run without this allowed sale/loading and internet would cost more when there is only a monopoly owning the lines.
